# Certificate IV in Project Management Practice

## PART 1

Complete our five-day Certified Project Officer workshop or our *Online Project EducationN* portal (OPEN).

## PART 2

6-12 months of unlimited, active mentor support for your workplace projects from proven industry experts.

## Enable innovation

<https://institute.pm/qualifications>

*Project management is a powerful tool for addressing the complex needs of today's organisations.*

*Unlike narrowly focused fields - such as HR, marketing, finance or IT - project management brings together an array of skill sets spanning creative and critical thinking, leadership, risk, change and stakeholder management.*

*Simply put, project management provides a structured yet flexible framework for tackling a diverse range of initiatives faster, better and in a cost efficient manner.*

Institute of Project Management graduates are **decision makers**; they are the project leaders, problem solvers and innovators of the 21st century.

- ✓ Unrestricted access to our global webinar series
- ✓ Free project management tools & templates
- ✓ International Certification (CPO or CPP)
- ✓ Accelerated pathway to our BSB51415 Diploma of Project Management

# BSB41515 Certificate IV in Project Management Practice

## Entry requirements

Entry is open to all persons who are continuously and actively involved in one or more workplace projects over the 6-12-month period of their enrolment, with the full support of their projects' sponsor(s).

## Coursework

In the first instance, students are required to complete either our five-day project management Certification workshop or all the assessment activities in OPEN.

Upon completing the coursework, students proceed to active mentoring.

## Active mentoring

The Certificate IV mentoring program is delivered one-on-one into your workplace over 6-12 months, using YOUR projects, programs and events as 'cases'. Our expert mentors work virtually with you to apply and extend your knowledge in live settings through interactive discussion and a final assessment.

The final assessment asks you to identify a project you have recently contributed to and critically reflect upon its performance – this will take the form of a 1,500 word (minimum) written report and presentation recommending improvements for your organisation.

Our mentors are not just proven project leaders; where possible, you will be paired with someone with specific experience and expertise in your industry.

## Graduate outcomes

Upon completion of our Certificate IV in Project Management Practice, you will be able to:

- Apply fundamental project management concepts, methods and theories
- Demonstrate the technical skills of project management
- Understand the interpersonal aspects of project management
- Participate in the delivery of varied projects
- Evaluate and respond to project challenges
- Communicate professionally with project stakeholders

You will also be directly admitted to the Institute of Project Management as a Certified Project Officer (or Certified Project Professional if you can evidence three (3) years' project experience).
