

BSB51415 Diploma of Project Management

Identify a complex project that has recently completed

Conduct a comprehensive review of its performance

Present and defend your findings / recommendations

Enable innovation

<https://institute.pm/qualifications>

Project management is a powerful tool for addressing the complex needs of today's organisations.

Unlike narrowly focused fields - such as HR, marketing, finance or IT - project management brings together an array of skill sets spanning creative and critical thinking, leadership, risk, change and stakeholder management.

Simply put, project management provides a structured yet flexible framework for tackling a diverse range of initiatives faster, better and in a cost efficient manner.

Institute of Project Management graduates are decision makers; they are the project leaders, problem solvers and innovators of the 21st century.

- ✓ Unrestricted access to our online resources
- ✓ Free project management tools & templates
- ✓ International Certification (CPO, CPP or CPM)

BSB51415 Diploma of Project Management

Entry requirements

Entry is open to all graduates of the Institute of Project Management's BSB41515 Certificate IV in Project Management Practice or people with three (3) years' experience leading complex projects (as per the Certified Project Master admission rules).

Coursework

In the first instance, students who are not graduates of our BSB41515 Certificate IV in Project Management Practice are required to complete either our five-day project management Certification workshop or all the assessment activities in OPEN.

As our Certificate IV program is intentionally designed to articulate into this Diploma, candidates with an equivalent qualification from another provider should contact us to determine if a gap assessment is required.

Active mentoring

In order to demonstrate your competence at the Diploma level, you are required to identify a complex public or private project that has recently completed and conduct a comprehensive review of its performance.

Your initiation, planning, delivery and close of this process will be facilitated by unlimited active mentor support.

Our mentors are not just proven project leaders; where possible, you will be paired with someone with specific experience and expertise in your industry.

Graduate outcomes

Upon completion of our Diploma of Project Management, you will be able to:

- Apply advanced project management concepts, methods and theories
- Demonstrate the technical skills of project management
- Leverage the interpersonal aspects of project management
- Manage the delivery of complex projects
- Evaluate and respond to dynamic project challenges in all environments
- Communicate professionally with project stakeholders

Graduates may also (pre-)qualify for admission to the Institute of Project Management as a Certified Project Master if they are a stranger to the project they review.
